

2~8°C Medical Refrigerator

YC-100L Medical Fridge

Effective and validated temperature control between 2-8°C

Uniform temperature distribution throughout the interior space

Glass door with demister function

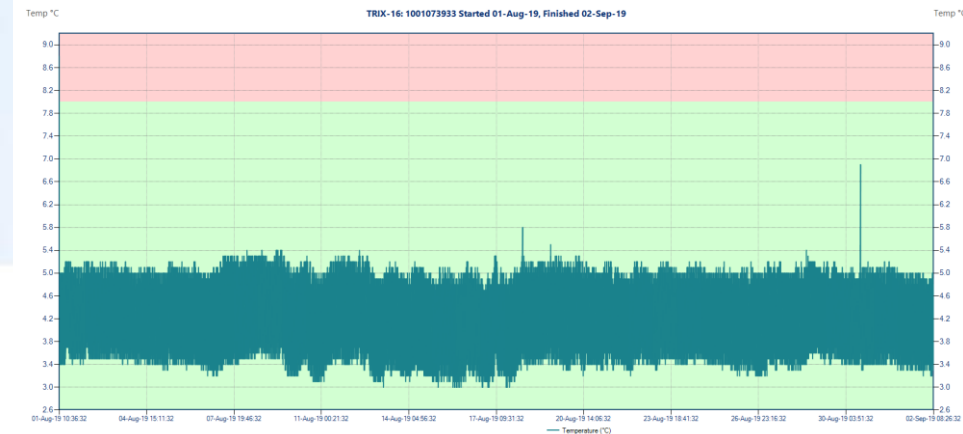

Spacious interior (100L) with multiple trays

Indicators and alarms: Yes

Inbuilt thermometer and LED lights

Climate-classification: SN – T (all climate)

CE & ISO13485 certified

Fridge temperature monitoring data (LogTag Data Logger)

True air cooling

Real energy saving

Really light and spacious

True security

People-oriented Design

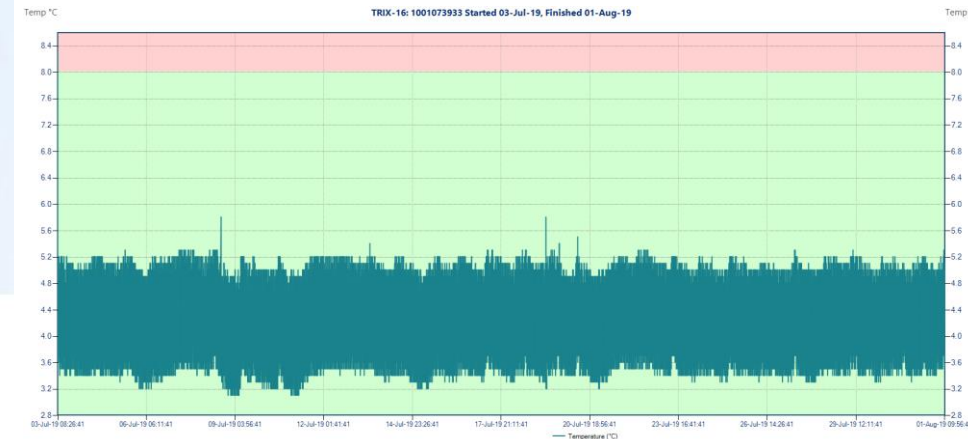

2~8°C Medical Refrigerator

YC-395L Medical Fridge

High-precision temperature control system (2-8°C)
Uniform temperature distribution throughout the interior space
Glass door with demister function
Spacious interior (390L)
Intelligent data display interface, alarms and USB port to download temperature data
Inbuilt LED lights
Climate-classification: SN – T (all climate)
CE & ISO13485 certified

Fridge temperature monitoring data (LogTag Data Logger)

True air cooling

Real energy saving

Really light and spacious
