

CoolPac

Polyurethane Insulated Shippers

Designed and manufactured in house in a range of standard sizes from small hand held boxes to full pallet bulk shippers.

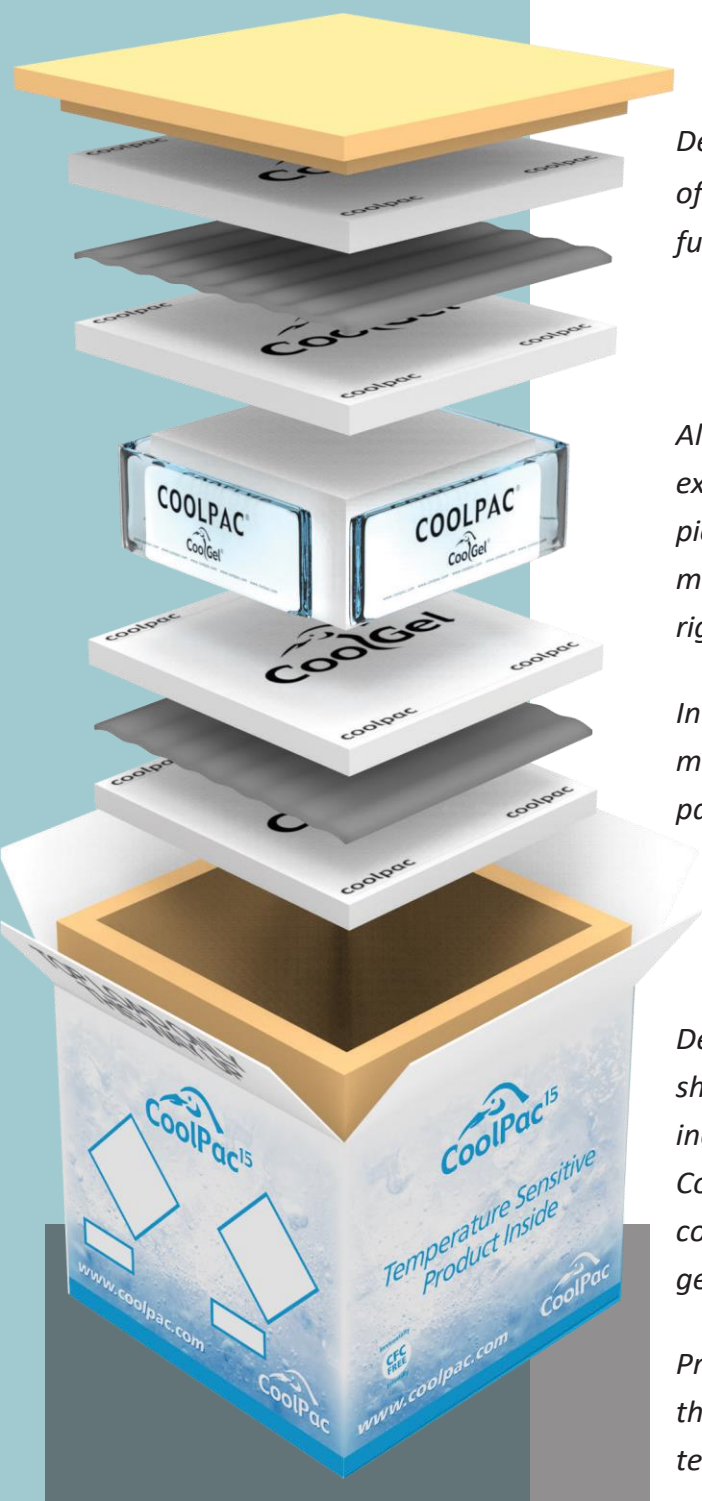

All CoolPac containers are manufactured using exclusive ONECELL technology to produce a one-piece urethane container to maximise strength and maintain long term cooling efficiency through the rigours of shipping , storage and regular reuse.

In contrast, most alternative shippers on the market are assembled from styrene or urethane panels that are taped or glued into a box form with limited strength and insulation properties once the box is mishandled during normal transport operations.

Depending on budgetary requirements and transit shipping times, other CoolPac material options include economical EPS and advanced VIP. All CoolPac containers are adaptable to various cooling technologies including Dry Ice, CoolGel gel packs and Phase Change Materials.

Precious cargo should not be risked with the potential of compromised insulation and temperature control in transit that inferior assembled shippers deliver.

Polystyrene Insulated Shipper

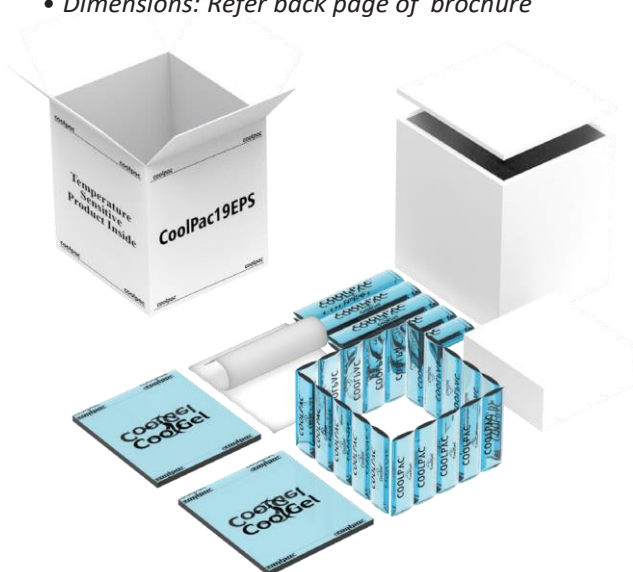

Economical single use shipper for short haul 24 hour transit times. Versatile 19 litre capacity container for a large variety of shipments.

Items in the kit:

- Outer Shipping box
- Polystyrene insulated container
- gel Gel Packs (Frozen and Chilled)

Specifications:

- Capacity: 19 litres
- Weight empty 7.5kg (for the kit)
- Dimensions: Refer back page of brochure

Polyurethane Insulated Shippers

Compact multi use shipper for short haul 24 hour transit times. Highly efficient OneCell Urethane insulation.

Items in the kit:

- Outer Shipping box
- One Cell polyurethane insulated container
- 4 x gel Gel Packs (Frozen and Chilled)

Specifications:

- Capacity: 5 litres
- Weight empty 5kg (for the kit)
- Dimensions: Refer back page of brochure

Pre Qualified Insulated Shipper

Multi use shipper for medium haul 24 to 96 hour transit times. Highly efficient OneCell Urethane insulation. Pre qualified to Australian standards.

Items in the kit:

- Outer Shipping box
- One Cell polyurethane insulated container
- gel Gel Packs (Frozen and Chilled)
- Product box
- PE Sheets

Specifications:

- Capacity: 45 litres
- Weight empty 18kg (for the kit)
- Dimensions: Refer back page of brochure

Pre Qualified Insulated Shipper

Multi use shipper for long haul 24 to 72 hour transit times. Highly efficient OneCell Urethane insulation. Pre qualified to Australian standards.

Items in the kit:

- Outer Shipping box
- One Cell polyurethane insulated container
- gel Gel Packs (Frozen and Chilled)
- Product box
- PE Sheets

Specifications:

- Capacity: 15 litres
- Weight empty 8kg (for the kit)
- Dimensions: Refer back page of brochure

Pre Qualified Insulated Shipper

Large and versatile multi use shipper for the longest transit times from 24 to 96 hours. Highly efficient OneCell Urethane insulation. Pre qualified to Australian standards

Items in the kit:

- Outer Shipping box
- One Cell polyurethane insulated container
- gel Gel Packs (Frozen and Chilled)
- Product box
- PE Sheets

Specifications:

- Capacity: 30 litres
- Weight empty 15kg (for the kit)
- Dimensions: Refer back page of brochure

Pre Qualified Insulated Palletised Shipper

Palletised multi use shipper for bulk shipment of temperature sensitive products over the longest transit times from 24 to 144 hours. Highly efficient OneCell Urethane insulation. Pre qualified to Australian standards.

Items in the kit:

- Outer Shipping box
- One Cell polyurethane insulated container
- gel Gel Packs (Frozen and Chilled)
- Coolfoam insulation sheets
- Europallet

Specifications:

- Capacity: 280 litres
- Weight empty 64kg (for the kit excluding pallet)
- Dimensions: Refer back page of brochure

Pre Qualified Insulated Palletised Shipper

The largest palletised multi use shipper for bulk shipments over the longest transit times from 24 to 144 hours. Highly efficient OneCell Urethane insulation. Pre qualified to Australian standards.

Items in the kit:

- Outer Shipping box
- One Cell polyurethane insulated container
- gel Gel Packs (Frozen and Chilled)
- Coolfoam insulation sheets
- Australian pallet

Specifications:

- Capacity: 1100 litres
- Weight empty 295kg (for the kit excluding pallet)
- Dimensions: Refer below

Pre-Qualified Shippers	Dimensions L x W x H	Overnight 12 - 24 hours	Interstate 48 - 72 hours	International 72 - 96 hours	Long Haul 96 - 144 hours
CoolPac^{EPS19}	Outer: 387 x 354 x 332mm Inner: 296 x 270 x 245mm Product Space: 230 x 210 x 135mm				
CoolPac⁵	Outer: 384 x 224 x 217mm Inner: 255 x 145 x 149mm Product Space: 200 x 100 x 80mm				
CoolPac¹⁵	Outer: 387 x 354 x 332mm Inner: 274 x 245 x 220mm Product Space: 165 x 85 x 198mm				
CoolPac³⁰	Outer: 591 x 414 x 352mm Inner: 484 x 303 x 250mm Product Space: 414 x 213 x 88mm				
CoolPac⁴⁵	Outer: 502 x 410 x 489mm Inner: 397 x 295 x 370mm Product Space: 328 x 218 x 205mm				
CoolPac²⁸⁰	Outer: 1064 x 710 x 620mm Inner: 946 x 595 x 555mm Product Space: 840 x 560 x 390mm				
CoolPac¹¹⁰⁰	Outer: 1117 x 1117 x 1600mm Inner: 960 x 960 x 1230mm Product Space: 900 x 900 x 1170mm
